

# EYE PROTECTION

# WE HAVE YOU IN OUR LINE OF VISION.

WE OFFER A COMPREHENSIVE SELECTION OF EYE PROTECTION PRODUCTS FOR A WIDE RANGE OF APPLICATIONS.

There are multiple factors to consider when selecting protective eyewear such as **functionality, practicality and comfort**. Eyewear is a personalized safety product that needs to be tapered to each worker's requirements. All safety glasses and goggles in this catalogue meet and/or exceed ANSI (Z87+) and/or CSA (Z94.3) standards.

## LENS COLOUR CHART

### Clear

General purpose lens. Use for indoor applications that require impact protection.

### Amber

Commonly used in indoor, low light applications. Enhances contrast.

### Blue Mirror

Grey polycarbonate lens with blue mirror coating. Commonly used in outdoor applications. Reduces glare.

### Indoor/Outdoor Mirror

Clear UV400 polycarbonate lens provides 100% protection from harmful UV-A and UV-B rays. Coated with a light gold mirror finish to reduce glare. Commonly used where it is required to move between indoor and outdoor applications.

### Grey

Commonly used in outdoor applications. Offers protection from excessive glare.

### Yellow

Offers high contrast and low light image resolution.

### Silver Mirror

Grey polycarbonate lens with silver mirror coating. Commonly used in outdoor applications. Reduces glare.

### Anti-Fog Lens Treatment

Anti-fog technology blocks out fog, mist, sweat and steam; vision will remain optically clear in any weather element. Anti-fog, anti-scratch coating is bonded to the lenses, and will continue to be effective even after repeated cleanings.
